

# **A Philadelphia Chapter One Special Event**

**Ships, Clocks and Stars  
At the Folger Library  
Washington D.C.**

# Saturday August 22, 2015

**A tour and Presentation by Rory McEvoy,  
Curator of Horology at the Royal  
Observatory Greenwich, England**

On display will be: one of **Harrisons Tall case clocks, H4** his successful solution to the Longitude Problem, **Working models of H 1, H 2, and H 3,** as well as K 1 and Earnshaws #312. The tour will also include artifacts pertaining to Capt. Cook, Sir Nevil Maskelyne, and other items relating to early navigation. A Chapter One Special Bus will transport you and your guests to and from the NAWCC Hqts to the Folger Library.

## **The Schedule for this event:**

Meet at the NAWCC Hqts Parking lot

**11:00 AM** Departure to the Folger Library 201 East Capital, S.E. Washington, D.C. 20003

**1:00 PM** Picnic Lunch at the Arboretum, Time & Weather permitting

**2:30 PM** Meet and Greet at the Entrance

**3:00 PM** Tour and Lecture

**4:00 PM** Departure to NAWCC Hqts.

Those not needing the Bus may feel free to meet us at the Library.

**The experience of a life time, see the devise that won the 20,000 Pound Longitude prize. It took decades to solve the problem and no less than four attempts to achieve success. Harrison's H 4 saved the lives of thousands of seafarers and made England the sovereign of the seas.**

## **Philadelphia Chapter One Special Event Sat. Aug. 22, 2015**
